

How Your Payouts Are Calculated?

Your payout is based on your subscription revenue after applicable taxes, platform fees (Apple/Google), and Closerrr's revenue share are deducted.

Here's the step-by-step breakdown:

- 1. Base Subscription Price:** ₹349 per subscriber per month.
- 2. GST Deduction (18%):** Net after tax = ₹295.76
- 3. Platform Fees:**
 - Apple (Year 1): 30% → ₹88.73 → Net after Apple = ₹207.03
 - Apple (Year 2 onward): 15% → ₹44.36 → Net = ₹251.40
 - Apple reduces its cut to 15% after 12 consecutive months of an uninterrupted subscription by the same fan.
 - If a user unsubscribes and then re-subscribes within 60 days, the original count continues. Otherwise, it resets.
 - Google: Flat 15% cut → ₹44.36 → Net = ₹251.40
- 4. Closerrr Commission (applied after platform fees):**

Your final payout is a percentage of the net post-Apple/Google revenue, based on your Active Subscriber Tier for the month.

How Your Payout Tiers Work?

Your payout percentage increases as your Active Subscriber count grows each month. Closerrr uses the regular calendar month (not Apple or Google's fiscal calendars) to keep things simple, fair, and easy to track.

Here's how your payout tiers are determined:

- 1. Tier 1:** Less than 1,000 Active Subscribers → You receive 70% of the net revenue (Closerrr keeps 30%)
- 2. Tier 2:** 1,000 – 1,999 Active Subscribers → You receive 71% of the net revenue (Closerrr keeps 29%)
- 3. Tier 3:** 2,000 – 2,999 Active Subscribers → You receive 72% of the net revenue (Closerrr keeps 28%)
- 4. Tier 4:** 3,000 – 3,999 Active Subscribers → You receive 73% of the net revenue (Closerrr keeps 27%)
- 5. Tier 5:** 4,000 – 4,999 Active Subscribers → You receive 74% of the net revenue (Closerrr keeps 26%)
- 6. Tier 6:** 5,000+ Active Subscribers → You receive 75% of the net revenue (Closerrr keeps 25%)

Please Note: These percentages apply after applicable taxes and platform fees (Apple/Google) are deducted.

Who counts as an Active Subscriber?

Active Subscribers include all users with an active, paid subscription to your profile across both Android and iOS platforms (Google & Apple).

- Your final Active Subscriber count is locked at 23:59 IST on the last day of each calendar month (month-end), and your payout tier is based on that number.
- Whether you cross a tier at the beginning or end of a month, only the final count at month-end is used to calculate your payout for that month.

When Will You Receive Your Payouts?

Payouts are typically processed on the 25th of the second calendar month following the revenue month. For example:

- January revenue → Paid on March 25th
- November revenue → Paid on January 25th

Why the Delay?

This delay exists because Apple and Google follow long financial reporting cycles. For instance, Apple releases earnings about 45 days after the end of its fiscal month - a timeline that's completely outside our control. To keep things smooth, simple, and easy to track, Closerrr combines both Apple and Google revenues and processes them together in one consistent payout batch each cycle.

Banking Details & Best Practices!

- All payouts are made in INR to the verified Indian bank account linked to your profile.
- It is your responsibility to ensure that your account details are accurate and up to date.
- Closerrr is not liable for any delays or failures in payout processing due to incorrect or outdated banking information.

Please Note: To avoid any payout delays or processing issues, ensure your bank details are updated at least 1–2 days before a scheduled payout (typically the 25th of each eligible month).

When Payouts Can Be Delayed or Lost?

- **Payout Withholding:**

Your payouts may be temporarily withheld if there are pending verification issues, suspected fraud, content-related disputes, or ongoing regulatory reviews. Payouts will resume once the issues are fully resolved.
- **If Your Account is Deleted or Suspended:**

If your account is deleted, suspended, or permanently banned before the billing cycle ends, you will forfeit all revenue for that month as a contractual penalty. However, any eligible payout from earlier billing cycles (before the suspension/deletion) will still be processed on the regular payout dates
